

Our Appleton location has served the greater Fox Valley for more than 17 years. Owned and operated by veteran architect Frank Isaacson and interior designer Marti Isaacson, our studios offer first rate design consultation, CAD room planning and precise quality installation practices. Our dedicated staff treats each customer as unique and solves their problems creatively. techline furniture is our passion and we truly believe in our motto:

*"If we say it's
going to happen...
it does"*

About Our Products:

techline is a precision furniture and cabinetry system using primarily laminate panels with accents of fabric, wood veneer, aluminum and glass. A crisp architectural look is the goal of our design team. Our production facility, north of Madison, manufactures for a perfect fit as well as allowing for interchangeability within the product line. Our color options are also interchangeable and neutral as a group. techline products are proven, functional and never go out of style.

Guarantee of Quality:

Our promise to you: It is our promise that we will replace any component which shows a defect in materials or workmanship during the first five years of ownership.

The Techline Brand: A Brief History

From its roots in medical furniture and cabinetry that revolutionized office efficiency to an independent tradename in 1977, techline has evolved to meet the needs of residential, business and health care customers. Our sprawling 600,000 square foot manufacturing facility in Waunakee, Wisconsin, houses the latest technologies, design concepts and professional workmanship that make techline furniture systems among the most sought-after in the industry.
